Professional Summary

Analytical and detail-oriented Data Analyst with strong knowledge of Python, Pandas, Excel, CSV handling, data cleaning, reporting, and data processing automation. Skilled in organizing raw data, identifying useful information, preparing structured reports, and improving workflow efficiency through automation. Experienced in recruiter data processing, LinkedIn job filtering, CSV-based data handling, dynamic resume creation, and automated email workflow systems.

Applied Role

DATA ANALYST - C2C

Technical Skills

- Python Programming
- Pandas Library
- Excel
- CSV Data Handling
- Data Cleaning
- Data Analysis
- Reporting
- Data Organization
- Workflow Automation
- Analytical Thinking
- Problem Solving

Project Experience

API1 - LinkedIn Recruiter Automation Project

Developed an API1 recruiter data processing automation system using Python and Pandas to filter LinkedIn job roles, organize recruiter data, generate dynamic PDF resumes, and automate professional email communication. The system improves data handling efficiency and reduces manual recruitment workflow effort.

Education

Bachelor Degree in Computer Science - Pursuing

Higher Secondary Education - Completed

Additional Strengths

- Quick Learner
- Strong Communication Skills
- Team Collaboration
- Problem Solving
- Professional Work Ethics
- Adaptability
- Time Management
